KPMG

fisherfunds

Notes to the Financial Statements

1 About this report

(a) Reporting entity

The reporting entity is the Fisher Funds Managed Funds Scheme ("the Scheme"). The Scheme is made up of seven funds ("the Funds"):

- Fisher Funds New Zealand Growth Fund ("New Zealand Growth Fund")
- Fisher Funds Australian Growth Fund ("Australian Growth Fund")
- Fisher Funds International Growth Fund ("International Growth Fund")
- Fisher Funds Property and Infrastructure Fund ("Property and Infrastructure Fund")
- Fisher Funds Income Fund ("Income Fund")
- Fisher Funds Conservative Fund ("Conservative Fund")
- Fisher Funds Growth Fund ("Growth Fund")

The Funds are Portfolio Investment Entities ("PIEs"), meaning income is taxed in the hands of the unit holders. The Manager attributes the taxable income of the Funds to unit holders based on their holding of units and pays tax on their behalf at their Prescribed Investor Rate. Tax payments/credits are transacted by cancellation or issue of units.

All investments made with the monies of a Fund shall be held by the Supervisor as the exclusive property of that Fund and will not be used to meet any liabilities of any other Fund.

(b) Statutory base

The Scheme is a reporting entity under the Financial Markets Conduct Act 2013 ("FMC Act") and is governed by the Governing Document. The Scheme is also registered as a Managed Investment Scheme in accordance with the Financial Markets Conduct Act 2013.

(c) Basis of preparation

The Scheme's financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP") and the New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") as applicable to for-profit entities and International Financial Reporting Standards ("IFRS").

The financial statements have been prepared in accordance with the provisions of the Governing Document and the FMC Act.

All amounts are in New Zealand Dollars and have been rounded to the nearest one thousand dollars unless stated otherwise. The Scheme is domiciled and registered in New Zealand.

Investments are financial instruments measured at fair value through profit or loss. All other assets and liabilities are measured at amortised cost.

(d) Changes in accounting standards

There are no new standards and no new amendments to or interpretations of standards that have been effective for the reporting period that have a material effect on the financial statements of the Scheme.

In May 2024, the XRB introduced NZ IFRS 18 *Presentation and Disclosure in Financial Statements* (effective for annual reporting periods beginning on or after 1 January 2027). This standard replaces NZ IAS 1 *Presentation of Financial Statements* and primarily introduces a defined structure for the statement of comprehensive income, and disclosure of management-defined performance measures (a subset of non-GAAP measures) in a single note together with reconciliation requirements. The Funds have not early adopted this standard and are yet to assess its impacts.

There are no other new standards and no other new amendments to or interpretations of standards that have been issued but are not yet effective that are expected to materially impact the financial statements of the Scheme.

(e) Unit holders' Funds

Units issued by the Funds provide the unit holders with the right to require redemption for cash at the value proportionate to the unit holders' share in each Fund's net asset value.

The units qualify as 'puttable instruments' (i.e. the Unit holder has the right to sell the instrument back to the Scheme at a pre-determined price), and are classified as equity as they are identical. Any owner changes in equity are presented in the Statements of Changes in Unit Holders' Funds, whereas any non-owner changes in equity are presented in the income section of the Statements of Comprehensive Income.

(f) Material judgements

The material judgements in preparing these financial statements are the valuation of the Scheme's investments and categorisation of its assets and liabilities fair value hierarchy, which is described in Note 3.

KPMG

Notes to the Financial Statements

1 About this report (continued)

(g) Material accounting policies

Profit and Loss recognition:	Dividends and distributions	Dividend and distribution income is recognised in the Statements of Comprehensive Income when the Funds' right to receive payment is established.
	Interest	Interest income on financial assets at amortised cost and investment assets at fair value through profit or loss are recognised using the effective interest rate method.
	Fair value changes	Net gains/(losses) on financial assets and liabilities at fair value through profit or loss are recognised in the Statements of Comprehensive Income. When an investment is sold, any gain or loss arising on the sale is recognised in the Statements of Comprehensive Income. Realised gains or losses are calculated as the difference between the sale proceeds and the carrying amount of the item.
Balance Sheet recognition:	Investment assets and liabilities	Investment assets and liabilities are recognised at fair value through profit or loss and then subsequently measured at fair value with gains or losses recognised in the Statements of Comprehensive Income. Purchases and sales of investments are recognised at trade date, which is the date the Fund commits to purchase or sell the investment. Transaction costs are expensed as incurred. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.
	Cash and cash equivalents	Cash and cash equivalents are comprised of cash held at banks, overdrafts and bank deposits with less than 3 months duration and are carried at amortised cost.
	Financial assets at amortised cost	Financial assets at amortised cost are comprised of investments that give rise to cash flows that are solely payments of principal and interest on principal amounts outstanding, less any provision for impairment.
	Trade and other payables and Related party payables	Trade and other payables are carried at amortised cost. Related party payables are carried at amortised cost.
	Trade and other receivables and Related party receivables	Trade and other receivables are carried at amortised cost, less any provision for impairment. Related party receivables are carried at amortised cost, less any provision for impairment.
	Tax	The Funds are Portfolio Investment Entities ("PIEs"), meaning income is taxed in the hands of the unit holders. The Manager attributes the taxable income of the Funds to unit holders based on their holding of units and pays tax on their behalf at their Prescribed Investor Rate. Tax payments/credits are transacted by the cancellation or issue of units.

2 Risk

The investment activities of the Funds come with financial risks. These risks are managed under the Scheme's Statement of Investment Policy and Objectives ("SIPO"), and are monitored by the Manager.

An analysis of the impact on Unit holders' funds for risk from the investments of the Funds is set out in the tables below. Unit holders' funds are impacted by price movements by the same amount as profit after adjusting for the impact of PIE tax adjustments attributable to Unit holders.

The Scheme is also exposed indirectly to interest rate risk and currency risk arising from its investment in PIE funds. These indirect risks are not considered in the analysis below.

(a) Price risk

Price risk is the risk of gains or losses from changes in the market price of investments. A variable of 20% is considered appropriate for market price risk sensitivity analysis based on historical price movements.

fisherfunds

Notes to the Financial Statements

2 Risk (continued)

(b) Interest rate risk

Interest rate risk is the risk of movements in interest rates. Surplus cash is held in interest bearing New Zealand and foreign bank accounts. The Funds are therefore exposed to the risk of gains or losses or changes in interest income from movements in both New Zealand and foreign interest rates. The Income Fund has additional exposure through its holding of debt securities. A variable of 1% was selected for interest rate risk as this is a reasonably possible movement based on historic trends and current market expectations.

KPMG

Notes to the Financial Statements

2 Risk (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Scheme will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with investment liabilities and withdrawals by unit holders. Liquidity risk is managed by holding sufficient liquid investments to enable the Scheme to meet liabilities as they fall due and unit holder withdrawals when requested. Monies received from unit holder contributions may be used to offset withdrawals and the Manager may in certain circumstances suspend withdrawals.

The Manager manages liquidity risk by monitoring the Funds' portfolios and giving consideration to illiquid investments not readily and easily sold, to ensure there are sufficient liquid assets to cover outstanding liabilities of the Funds.

The Funds invest in various Fisher Institutional Funds. Investment assets in these Institutional Funds are either diversified, or invest in other wholesale funds, which are themselves diversified. Furthermore, there have been no restrictions or deferral of redemptions of units in the Fisher Institutional Funds during the period or subsequent to year end.

The Conservative and Growth Funds have investments in the Fisher Institutional Property Fund ("FIPF"), as per Note 4(b)(ii). Units in FIPF cannot be redeemed for a period of two years following issue, and if they are rolled over after this period, they are not redeemable for a further two year period. Two months' notice of redemption is required. The Manager may allow an earlier redemption in exceptional circumstances and units may be transferred with the Manager's approval. Investments in FIPF with a maturity greater than 12 months after the balance date have been presented as non-current assets in the Statements of Financial Position.

The Scheme manages its unit holders' funds as capital. All units in each Fund carry the same rights, preferences and restrictions. The Supervisor may defer giving effect to a permitted withdrawal out of the Scheme if the Supervisor determines that having regard to the realisation of assets required in order to make the withdrawal or transfer or the occurrence or existence of any other circumstance or event relating to the Scheme or generally, earlier withdrawal or transfer would be imprudent or is impracticable.

(e) Environmental & Social Risk

Fisher Funds' Investment activities are exposed to various environmental, social, and governance (ESG) risks and opportunities. Fisher Funds' internal investment team recognise this risk and ensure that all investment activity is managed in accordance with Fisher Funds Responsible Investment Policy.

The policy outlines three key ways in which Fisher Funds aims to invest responsibly, including maintaining a Master Exclusion List that identifies companies that do not meet Fisher Funds' ESG standards, incorporating ESG considerations into all fundamental research and engagement with companies, along with exercising proxy voting rights in a way which takes into account Fisher Funds' ESG standards.

Fisher Funds have an ESG Committee, the key responsibility of the committee is to effect, oversee and monitor the integration of the Responsible Investment Policy for Fisher Funds. The ESG Committee consists of members appointed by the CEO and meet bi-monthly or when required. The ESG Committee also has discretion over companies on the Master Exclusion List and monitors and maintains policies related to Fisher Funds' Responsible Investment approach.

(f) Credit risk

Credit risk is the potential risk of financial loss resulting from the failure of counterparties to honour fully the terms and conditions of a contract with the Scheme. The Scheme minimises concentrations of credit risk by undertaking transactions with a number of counterparties on recognised and reputable exchanges. The Scheme could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a derivatives contract, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Financial instruments that subject the Scheme to credit risk consist primarily of cash and cash equivalents, fixed interest investments, swaps and forward foreign exchange contracts.

The Manager has assessed the impact of non-performance risk on the financial instruments subject to credit risk and determined that no adjustment to the fair value is required. The Manager minimises credit risks to the Scheme by performing reviews of each counterparty. All transactions in listed securities are paid for on delivery according to standard settlement instructions.

PIE funds indirectly subject the Scheme to credit risk by investing in cash, fixed interest investments and forward foreign exchange contracts. The maximum exposure for the Scheme to credit risk is represented by the carrying value of these financial instruments. The Scheme's investment in PIE funds, due to the risk and reward profile of those investments, are considered to be similar to an equity holding and are therefore not included in the credit risk sensitivity analysis.

The table below sets out the equivalent Standard and Poor's short term credit rating for cash and cash equivalents, bank deposits at amortised cost, and long term credit ratings for debt securities, swaps and forward foreign exchange contracts at fair value through profit or loss held by the Scheme:

KPMG

Notes to the Financial Statements

Credit rating	AA- to AA+	**1,834**	2,024	**985**	1,256	**1,406**	1,289	**2,412**	2,477	**412**	701	**1,143**	1,252	**6,415**	3,054
	A- to A+	-	-	-	-	-	-	-	-	-	(1)	-	-	-	-
	Unrated	-	-	-	-	-	-	-	-	**701**	2,969	-	-	-	-
Total credit rating		**1,834**	2,024	**985**	1,256	**1,406**	1,289	**2,412**	2,477	**1,113**	3,669	**1,143**	1,252	**6,415**	3,054

The Scheme's maximum exposure to credit risk at balance date in relation to each class of recognised asset is the carrying amount of those assets as indicated in the Statements of Financial Position.

The Manager moderates credit risk through careful security selection and diversification, daily monitoring of the Scheme's market position and adherence to the Scheme's investment policy. There is no exposure to any issuer which is greater than 10% of the Funds' net assets to any one counterparty (excluding PIE funds which are detailed in Note 4(b)(ii)).

3 Investments at fair value through profit or loss

All investments are valued at fair value, with gains or losses recognised in the Statements of Comprehensive Income. The Scheme classifies its investments at fair value through profit or loss upon initial recognition as the Scheme manages its investments based on their fair value and in accordance with the investment strategy. Purchases and sales of investments are recognised on the trade date, the date on which the Scheme commits to purchase or sell the investment. Derivative instruments which are primarily forward foreign exchange contracts and interest rate swaps. The use of derivatives is governed by investment guidelines which are set by the Manager with the approval of the Supervisor. Where derivative instruments are used to economically hedge currency risk, hedge accounting is not applied and derivatives are accounted for on the same basis as those investments being hedged and are recognised at their fair value.

(c) Fair value hierarchy

The fair value of an investment is the price that would be received to sell an investment asset, or paid to transfer a financial liability, in an orderly transaction between market participants at measurement date. Investments recognised at fair value are categorised according to the level of judgment used in determining the fair value. There are three levels in the hierarchy of fair value measurements which are based on the observability of inputs to measure fair values:

	Input observability	Application
Level 1:	Fair value is calculated using quoted prices in active markets.	None
Level 2:	Investment valuations are based on direct or indirect observable data other than quoted prices included in Level 1. Level 2 inputs include: (1) quoted prices for similar assets or liabilities; (2) quoted prices for assets or liabilities that are not traded in an active market; or (3) other observable market data that can be used for valuation purposes.	PIE investments are not traded in an active market and their fair value is based primarily on the latest available redemption price at balance date of the respective PIE funds. Fair value for forward foreign exchange rate and swap contracts are determined using valuation techniques based on spot exchange rates, forward points and prices supplied by third party pricing vendors.
Level 3:	Fair values are estimated using significant inputs that are unobservable for the investments.	None

KPMG

Notes to the Financial Statements

3 Investments at fair value through profit or loss (continued)

The table below categorises investment by fair value hierarchy:

(i) Investment assets at fair value through profit or loss

	New Zealand Growth Fund		Australian Growth Fund		International Growth Fund		Property and Infrastructure Fund		Income Fund		Conservative Fund		Growth Fund	
	2025 $000	2024 $000	**2025 $000**	2024 $000	**2025 $000**	2024 $000	**2025 $000**	2024 $000	**2025 $000**	2024 $000	**2025 $000**	2024 $000	**2025 $000**	2024 $000

4 Related parties and entities

Fisher Funds Management Limited ("the Manager") and Trustees Executors Limited in their role as the Supervisor provide key management personnel services to each Fund as per NZ IAS 24 *Related Party Disclosures* . The roles of the Manager and the Supervisor are specified as per the Governing Document.

The Manager has the ability to control or exercise significant influence over each Fund through the provision of its investment management services. The Supervisor's role is to actively supervise the Manager's performance of its functions and obligations. Both roles include planning, directing and controlling the activities of each Fund.

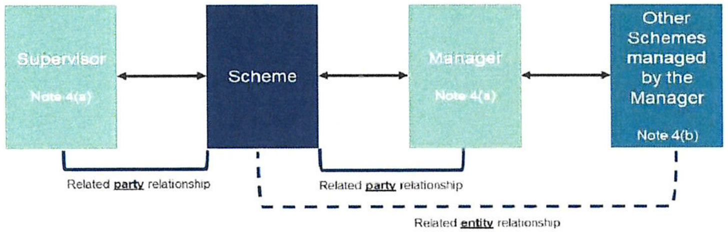
Each Fund holds investments (and enters into transactions) in other funds managed by the Manager. Funds with a common manager are not viewed as a related party relationship as per NZ IAS 24 *Related Party Disclosures* as they do not have the ability to control or exercise significant influence over one another. However, these transactions and balances are disclosed for the purposes of these financial statements as a related entity.

KPMG

Notes to the Financial Statements

4 Related parties and entities (continued)

These relationships are illustrated below:



The Manager is entitled to a management fee calculated as a percentage per annum of the gross asset value ("GAV") of the Funds. Management fees are calculated daily and payable monthly at the following percentage for each Fund (No change from prior year):

Fund:	New Zealand Growth	Australian Growth	International Growth	Growth	Property and Infrastructure	Conservative	Income
Management Fee:	1.25%	1.25%	1.25%	1.25%	1.25%	1.10%	0.75%

Trustees Executors Limited is entitled to a Supervisor fee in undertaking these duties which is paid by each Fund. Up to 30 September 2024, Trustees Executors Limited undertook custody, unit pricing and accounting services, and up to 28 February 2025 undertook registry services for each Fund for which it was entitled to a fee. These fees were paid directly by the Funds. From 1 October 2024 the custody, and unit pricing services, and from 1 March 2025 the registry services are no longer provided by Trustees Executors Limited.

The Manager does not charge a management fee in all but one of the underlying investments (i.e. other Schemes managed by the Manager) to ensure there is no fee duplication. The exception is where a Fund invests into the Fisher Institutional Property Fund ("FIPF"). The Manager rebates to the Funds the 0.75% management fee (2024: 0.75%) it charges FIPF and this is classified as income.

The Manager is also entitled to be paid a performance fee where the returns to unit holders exceed the Fund's benchmark ("Benchmark Return") capped at 2% p.a. of the average net asset value of the Fund. The Benchmark Return is measured as the percentage change in the NZ Official Cash Rate ("OCR") plus 5% for the New Zealand Growth Fund, Australian Growth Fund and International Growth Fund and plus 3% for the Property and Infrastructure Fund. No performance fees are earned or payable on the Conservative Fund, Income Fund or Growth Fund.

A high water mark applies to ensure management is only rewarded for investment performance once. Where the high water mark is higher than the performance period end unit price, no performance fee is payable. Where the high water mark is lower than the performance period end unit price the fee is the lesser of:

10% (plus GST) of the return in excess of the Benchmark Return or

10% (plus GST) of the return achieved above the high water mark.

There was a performance fee accrued for the year ended 31 March 2025 for the Property and Infrastructure Fund. No performance fees were accrued for the remaining Funds. (2024: Performance fee accrued for the Australian Growth Fund, International Growth Fund and Property and Infrastructure Fund).

The performance fee is calculated for the period 1 July to 30 June. Therefore, the actual amount payable at the end of the current performance period may be greater or less than the performance fees accrued at 31 March. The performance fee is accrued daily and is payable to Fisher Funds post 1 July.

Income earned or fees incurred by the Funds during the period, and amounts receivable from or payable to the Manager and Supervisor at balance date, are detailed below:

KPMG

4 Related parties and entities (continued)

(b) Transactions and balances with related entities

(i) Investment transactions with related entities

In the normal course of business, each Fund may enter into a transaction where another fund managed by the Manager is the counterparty. Funds with a common manager are not viewed as a related party relationship as per NZ IAS 24 *Related Party Disclosures* as they do not have the ability to control or exercise significant influence over one another. However, transactions and balances between each Fund and other funds with a common Manager are disclosed for the purposes of these financial statements as a related entity.

During the year various investments were bought or sold by the Scheme where the counterparty was another Fund also managed by the Manager. All such transactions were carried out in the ordinary course of the Scheme's activities and were transacted at the fair value of the underlying investment bought or sold (i.e. on an arm's-length basis). No brokerage fees were charged.

	New Zealand Growth Fund		**Australian Growth Fund**		**International Growth Fund**		**Property and Infrastructure Fund**		**Income Fund**		**Conservative Fund**		**Growth Fund**

Sales of investments[1]	**-**	215,056	**-**	-	**-**	-	**-**	-	**2,370**	38,106	**-**	-	**-**	-
Unsettled sales of investments	**-**	-	**-**	-	**-**	609	**-**	-	**68**	-	**-**	-	**-**	-

There were no unsettled purchases or purchases with related entities as at 31 March 2025 (31 March 2024: Nil).

(1) The purchases and sales of investments exclude applications and withdrawals in Fisher Institutional Funds.

On 30 January 2025, there was an in-specie transfer of financial assets at amortised cost held by the Income Fund for units in the Fisher Institutional Income Fund to improve operational efficiency. The value of these financial assets at amortised cost at the time of transfer was $2,369,914. These amounts are included in the total sales of investments to related entities line in the Income Fund.

On 28 November 2023, there was an in-specie transfer of all debt securities held by the Income Fund for units in the Fisher Institutional Income Fund to improve operational efficiency. The fair value of these debt securities at the time of transfer was $37,777,787. These amounts are included in the total sales of investments to related entities line in the Income Fund.

On 7 September 2023, there was an in-specie transfer of all listed equities held by the New Zealand Growth Fund for units in the Fisher Institutional New Zealand Equities Fund to improve operational efficiency. The fair value of these listed equities at the time of transfer was $214,011,915. These amounts are included in the total sales of investments to related entities line in the New Zealand Growth Fund.

Notes to the Financial Statements

4 Related parties and entities (continued)

(ii) Investments in related entities

The Scheme indirectly holds multiple investments through other funds managed by the Manager. The Scheme has been deemed to meet the definition of an investment entity and accordingly the Scheme's investments in other PIE funds managed by the Manager are not consolidated, instead measured at fair value through profit or loss, if any. The Scheme's investments in other funds managed by the Manager (PIE Funds per Note 3) are as follows:

Interest income on investment assets at amortised cost is recognised in the Statements of Comprehensive Income as interest accrues using the effective interest rate method. All other interest income is recognised at fair value through profit or loss.

7 Capital commitments and contingent liabilities

There were no capital commitments or contingent liabilities as at 31 March 2025 (31 March 2024: Nil).

8 Subsequent events

As at the date of signing, the underlying funds covered in these financial statements may have experienced movement in unit prices. For recent unit price and fund performance, please visit www.fisherfunds.co.nz/unit-prices-and-performance/unit-prices (note, this information is unaudited).

There were no other significant events subsequent to the reporting date which require adjustment to or disclosure in these financial statements.

KPMG

Independent Auditor's Report

To the unit holders of:

- Fisher Funds New Zealand Growth Fund
- Fisher Funds Australian Growth Fund
- Fisher Funds International Growth Fund
- Fisher Funds Property and Infrastructure Fund
- Fisher Funds Income Fund
- Fisher Funds Conservative Fund
- Fisher Funds Growth Fund

Collectively "Fisher Funds Managed Funds Scheme" (**funds**)

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements which comprise:

- the statements of financial position as at 31 March 2025;
- the statements of changes in unit holders' funds, comprehensive income and cash flows for the year then ended; and
- notes, including material accounting policy information.

In our opinion, the financial statements of Fisher Funds Managed Funds Scheme on pages 2 to 18 present fairly, in all material respects, the funds' financial position as at 31 March 2025 and their financial performance and cash flows for the year ended on that date, in accordance with New Zealand Equivalents to International Financial Reporting Standards (**NZ IFRS**) issued by the New Zealand Accounting Standards Board and International Financial Reporting Standards issued by the International Accounting Standards Board.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (**ISAs (NZ)**). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the funds in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (**IESBA Code**), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

Our firm has also performed climate related disclosure services and undertaken supervisor reporting in line with our obligations under Section 198 and 199 of the Financial Markets Conduct Act 2013 (**FMC Act 2013**). Subject to certain restrictions, partners and employees of our firm may also deal with the funds on normal terms within the ordinary course of trading activities of the business of the funds. These matters have not impaired our independence as auditor of the funds. The firm has no other relationship with, or interest in, the funds.

Materiality

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at 1% of total assets of each fund. We chose the benchmark because, in our view, this is a key measure of the funds' performance.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the unit holders as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements.

The key audit matter	How the matter was addressed in our audit
Existence and valuation of investments	
Refer to Note 3 to the Financial Statements. Investments are the funds' main assets, and existence and valuation of those investments is the most important aspect of preparing the financial statements. As described in the financial statements, the funds' investments are primarily fund-to-fund investments which are held by one custodian. The global economy continues to have a heightened level of uncertainty due to macroeconomic conditions and continuing geopolitical tensions. This creates an elevated level of uncertainty in the valuation of investments and the fair value hierarchy. As a result, additional judgement is required.	Our audit procedures included: • documenting and understanding the processes in place to record investment transactions and to value the portfolio. This included evaluating the control environment in place at the custodian, investment accounting and registry service providers by obtaining and reading the service organisation reports issued by an independent auditor on the design and operation of those controls throughout the period; • agreeing investment holdings to the confirmations received from the custodian; • agreeing the valuation of fund-to-fund investments to the redemption value per unit as reported by the investment accounting service provider; and • checking the accuracy of fair value levels as disclosed in the financial statements. We did not identify any material differences from our procedures.

Other information

The Manager, on behalf of the funds, is responsible for the other information. The other information comprises information included in the Directory which we obtained prior to the date of this auditor's report, and information included in the Annual Report which is expected to be made available to us after the date of this auditor's report, but does not included the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the Manager.

Use of this independent auditor’s report

This independent auditor’s report is made solely to the unit holders as a body. Our audit work has been undertaken so that we might state to the unit holders those matters we are required to state to them in the independent auditor’s report and for no other purpose. To the fullest extent permitted by law, none of KPMG, any entities directly or indirectly controlled by KPMG, or any of their respective members or employees, accept or assume any responsibility and deny all liability to anyone other than the unit holders as a body for our audit work, this independent auditor’s report, or any of the opinions we have formed.

Responsibilities of the Manager for the financial statements

The Manager, on behalf of the funds, is responsible for:

- the preparation and fair presentation of the financial statements in accordance with NZ IFRS issued by the New Zealand Accounting Standards Board and the International Financial Reporting Standards issued by the International Accounting Standards Board;
- implementing the necessary internal control to enable the preparation of a set of financial statements that is free from material misstatement, whether due to fraud or error; and
- assessing the ability of the funds to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

Auditor’s responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor’s report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/

This description forms part of our independent auditor’s report.

The engagement partner on the audit resulting in this independent auditor's report is Andrew Naughton.
