Notes

1. The GlidePath Age 25 risk indicator has been calculated using the return of the fund referenced for the age group. As that fund has not been in operation for five years, market index returns have been used from 1 July 2020 to 31 March 2025 and actual returns after that. As a result of those returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of GlidePath Age 25.
2. The annual fund charges for the GlidePath ages are estimated based on the annual fund charges for the Plan fund(s) as at the stated age. The annual fund charges will vary based on the performance of the Plan fund(s) and the proportion invested in each between GlidePath ages.
3. As GlidePath Age 25 started on 26 March 2025, an annual return for the year ended 30 June 2025 is not available. For the purposes of the investor example, the return is the actual return of the market index for the period 1 July 2024 to 30 June 2025 with no deductions for charges and tax.
4. While there were no members in this GlidePath age as of 30 June 2025, we have prepared this information based on the mix of funds that comprise this GlidePath age.
